- MYSQL

## PROFILE

Eager to contribute a splash of innovation to the coding canvas, while continuously expanding my fluency in software development and programming languages. Excited to be part of a vibrant, cutting-edge environment where creativity and code converge. With a keen eye for detail and a knack for collaborative problem-solving, I am poised to not just meet but exceed the demands of the ever-evolving tech landscape.

Driven by a curiosity to explore unconventional solutions, I am committed to bringing a fresh perspective to every project, fostering an environment where innovation thrives and digital possibilities unfold.

## PROJECTS

### FLIXGO MOVIE WEBSITE

It's a kind of website like IMDB

- Featured Movies/TV Shows: Display currently trending or highly rated movies and TV shows.
- Upcoming Releases: Highlight movies and TV shows that are set to be released soon.
- Top Charts: List top-rated movies, popular movies, and trending TV shows.

### PAPERSMASH

- Established Papersmash as an inclusive platform empowering writers to share their literary works and fostering a diverse community of emerging talent.
- Developed a transparent and equitable monetization system utilizing PHP and MySQL to ensure eligible writers receive financial compensation.
- Provided opportunities for emerging writers to publish their literary works, nurturing a community of proficient writers.

### DELTRO COMPTRACKER HUB (WOMEN SAFETY)

- Safety Guides: Comprehensive guides on personal safety, online safety, travel safety, and more.
- Legal Information: Information about rights, laws, and legal support services.
- Health and Wellness: Resources on mental health, physical health, and self-care.
